Wayne,

Attached is the letter from Steve Castleman on November 20, 2018. Also attached is a letter Castleman sent to the Navy in February. We scheduled a listening meeting with Enrique and Castleman on February 13, 2019. Attached is the agenda for that meeting; our goal of the meeting was to listen to his concerns.

Last week, Castleman called Enrique and our site attorney (Brianna) when he heard the Navy was issuing their "Final Parcel G Work Plan." Brianna returned the call, letting him know that EPA has only partially approved the Work Plan and will be working with the Navy over the next few months on other parts of the Work Plan.

Over the past month, Castleman has been in contact with our headquarters radiation risk assessment expert (Stuart Walker). He has been inquiring about the PRG Calculator. Stuart answers questions from a national level; and, he recommends Castleman reach out to EPA on site-specific questions.
